Senior Product Designer with 7+ years building scalable SaaS and enterprise platforms. Experienced in setting design direction, leading designers, and driving design strategy from research through delivery. Driven measurable impact: +50% lead conversion for Pyro.ai's first client and ~30% growth in user adoption at Teradata. Experienced designing for diverse users from tech-savvy database admins to non-tech elderly users, while simplifying complex workflows at scale.

## EXPERIENCE

### Founding Designer, Pyro.ai (Part time)

August 2025 - Present

Owned design direction end-to-end for Pyro's first enterprise engagement: set strategy, ran on-site ethnographic research, and delivered a redesigned CRM flow that drove 50% increase in lead conversion.

Shipped a design system via Figma MCP + Claude, defined component specs and variants that reduced design-to-code drift and accelerated engineering handoff.

### Product Designer, InvoiceCloud

March 2025 - August 2025

Designed self service for custom domain availability for non-tech elderly clients (email-to-payment flow for their end clients). Which increased conversion rate via emails and reduced customer support volume for us. Ran heuristic evaluation across web product. Contributed to stellar design system for cross-platform consistency.

### Senior Product Designer, Teradata

May 2023 - December 2024

Led design for Teradata's VCL Observability suite across query monitoring, alerting, and reporting, driving ~30% user adoption growth through research-led redesign and cross-functional alignment with PM and engineering.

Modernized Business Continuity Manager: heuristic evaluation, redesigned task flows, reduced time-to-action.

Mentored a junior designer from onboarding to independent delivery, structured their workflow, ran design critiques, and guided them to ship features in Vantage CloudLake.

### UX Associate, JP Morgan Chase

October 2021 - May 2023

Shipped data-rich Dashboard for RACER (regulatory meeting tracking for internal legal teams) end-to-end: research, flows, component specs. Owned from product phase through live.

Designed DOGMA (document governance), a collaboration-heavy interface for finalizing and publishing regulatory documents to all employees.

Led accessibility across 6 internal products at scale; established accessibility WCAG 2.1 review process.

### UX Designer II, Oracle

May 2019 - October 2021

Applied Oracle's Redwood design system to Primavera Unifier adapted its visual and structural language to the product. Created evidence-based guidelines that scaled across the team.

Redesigned 3 features in Primavera unifier with cross-functional collaboration across cashflow, portfolio, and Activity management to surface insights from unused data. All shipped. 3.75% sales lift for cash flow.

### UI/UX Designer, Scry ai

June 2018 - April 2019

End-to-end design for a B2C social platform for cancer patients, including full brand identity.

## EDUCATION

### Bachelors in Design, IIT Guwahati

June 2014 - May 2018

## SKILLS

### Design

User research, interaction design, journey mapping, information architecture, wireframes, A/B testing, visual design, usability testing, design systems, heuristic evaluation, prototyping, design strategy, stakeholder management.

### AI

AI-native design: LLM interaction patterns, human-in-the-loop flows, prompt evaluation. Tools: Figma MCP, Claude, Cursor.

### Tools

Figma (+ MCP), Framer, Miro, Adobe Suite, VS Code, HTML/CSS, SQL, DBMS Basics, Cursor.

### Miscellaneous

Agile, Scrum

## ADDITIONAL

### AI Project (On Going)

Built an AI fitness coach app end-to-end, designed UX and developed using VS Code with Groq, OpenAI, and Supabase APIs. Full design-to-code with live AI integrations.

### Teaching (Volunteer)

Designers Institute (2021–23). 4 cohorts for 28 days each. From research to portfolio mentorship.

### Design Consultant, Bridgetech

Design Consultant (August 2022 - March 2023): Worked for 'Hire++', a new hiring platform from Bridgetech. Owned product thinking and my prototypes were used to pitch the idea to potential investors and clients.
